## The Belgian Business Chamber Award 2021 Application

### Contest questionnaire

#### Corporate Social Responsibility

In ASB we believe that doing business may have a real impact on surrounding world. In our everyday work we are trying to encourage employees to help others and support positive initiatives. This year we were collecting food and accessories for animals from animal shelter called "Towarzystwo Przyjaciół Zwierząt Arkadia". Also, we are aware of the fact that the company is responsible for employees and their health and well-being. That's why we ensure healthy and fresh snacks everyday to our offices (fruits and vegetables) for our employees, we encourage them to practice sports by internal bike competition ASB on Bike (organised together with Activy). Apart from riding a bike, and getting points we were collecting kilometers which were later on changed into money that we have given to Rak'nRoll Foundation.

#### Innovative ways of doing business

As a modern and fast developing company we like innovations and we are doing our best to implement new technologies in everyday work. Recently we have introduced a paper-less document work-flow which makes our work much easier, taking into account that some part of our employees are working remotely. Additionally, as our company hires tax experts we developed an IT tool which automates verification of JPK\_V7M files in terms of its technical and substantial correctness. IT solutions facilitating tax reporting in Poland are getting more and more popular as extensive reporting requirements on the part of taxpayers in fulfilling their tax obligations create the need to analyze transactions carefully to reduce tax risk and avoid penalties.

## Creating value for Belgian business in Poland

As a BBC member we would like our input in Chamber's activity is valuable. Thus this year we came with an initiative to share the knowledge of our experts with BBC's member companies. Summaries of the most important and the most interesting tax news, written by our experienced professionals are being shared within "ASB for BBC" cycle. Moreover we are cooperating with other member companies while organising free webinars (for example webinars with Peterka&Partners).
