## **Painters of Clouds and Sunflowers. Dutch and Flemish Masters from Rubens to Van Gogh.**

We are delighted to invite you to a unique event at the intersection of art and business.

We believe that the theme of the evening – art and culture – serves as one of the most beautiful and enduring bridges between people, and we trust it will resonate deeply with our guests.

The event will feature an inspiring lecture by Dr. Martyna Łukasiewicz de Espinosa, Curator of the Gallery of European Art, accompanied by a multimedia presentation. This engaging format will unveil the richness of Dutch and Flemish painting – from the grand, dynamic compositions of Rubens to the luminous, emotional expressiveness of Van Gogh.

We are looking forward to welcoming a wide and distinguished circle of guests, including representatives of Polish, Dutch, and Belgian companies, public administration, and a variety of professional sectors.

The evening will be an excellent opportunity for networking and engaging conversation in a relaxed and welcoming atmosphere.
