

Belgian Business Chamber Award 2023

Euroclear SA/NV Application

What activities do you think have contributed significantly to your company's success in Poland and to strengthening Belgian-Polish business relations?

Since the setup of our Euroclear Bank Krakow branch more than 10 years ago, our Polish office has grown to be the second largest employee base within the entire Euroclear organisation. These dynamic, diverse and creative profiles form an important backbone of our banking operations. Euroclear Krakow has continued to evolve over the years into a key operational hub of the Euroclear group, employing more 800+ professionals.

This continued evolution has resulted in the office in June 2023 taking the next step in its growth with it opening the Euroclear Poland SA/NV branch. This new branch will include new roles including various control functions such as IT, AML, KYC, and Finance demonstrating our deep commitment to the Polish business landscape.

We rely on a strong culture of cooperation and a sense of unity within the entire company. What distinguishes the Krakow market is its extraordinary commitment and energy to work. There is also a great sense of community, despite the fact that Euroclear Poland employs specialists from almost all over the world. We are proud of how diverse and international, yet respectful community we create everywhere where our company operates. We want a culture at Euroclear where relationships are built on trust, where we connect meaningfully with each other, and our people can succeed on their terms.

Euroclear is growing
globally and in Poland.
And so will you!
Let's grow together.
